

AddContactNote

Last Modified on 11/01/2017 9:56 am CDT

Overview

Add a contact note via an http form post.

Post Url

<https://hyperdrivepro.morethanrewards.com/api/2/AddContactNote.aspx>

- SSL is required

Important Note

Submitting a blank field will result in clearing the data for that field out of the database. If you don't want to change a field, do not submit it with the form.

Form Fields

Field	Max Length*	Required	Notes
response_type		Yes	Set this field value to json to return results in JSON format
accountid		Yes	Must be numeric. Account ID for this account.
apikey		Yes	API Key for this account.
teammemberid		No	Must be numeric. Team Member ID. Defaults to 0 (Account Owner).
identifymethod	1	Yes	Values: 1 : By contactid (It's recommended that you use this method and store our contactid in your system) 2 : By primary email on file. If there are multiple matches for the email address, we will choose the first one (by add date)

			3: By email or other email on file. If there are multiple matches for the email address, we will choose the first one (by add date)
identifyvalue	75	Yes	Value changes based on indentifymethod . Must be integer if contactid, otherwise must be an email address on file
note		Yes	No HTML. Use \n to insert a new line character.
pin		No	0: Not Pinned (default) 1: Pin this note (there is maximum number of pinned notes. Pinning a note may unpin an older note.)
date		No	Optional Date+Time in the following format: MM/DD/YYYY HH:mm (Use US Central time) To use current server time, leave the date field blank

* An error will not result if Max Length is exceeded. Data will be trimmed to this length.
