Form Fields

Field	Max Length*	Required	Notes
response_type		Yes	Set this field value to **json** to return results in JSON format
accountid		Yes	**Must be numeric.** Account ID for this account.
apikey		Yes	API Key for this account.
identifymethod1		Yes	Values:**1** : By contactid (It's recommended that you use this method and store our contactid in your system) **2** : By primary email on file. If there are multiple matches for the email address, we will choose the first one (by add date) **3:** By email or other email on file. If there are multiple matches for the email address, we will choose the first one (by add date)
identifyvalue	75	Yes	Value changes based on **indentifymethod**. Must be integer if contactid, otherwise must be an email address on file
occasion	1	yes	Possible Values:

			1: Birthday, 2: Anniversary, 3: Other
description	50	yes	
addresslabel	50	yes	
date	10	yes	Use only formats MM/DD or MM/DD/YYYY. Zero pad leading digits, so month and day are always 2 digits. January 5th is 01/05.

* An error will not result if Max Length is exceeded. Data will be trimmed to this length.
